Arie & Desirée

Welcome to the Philippines!

Start with an archipelago of more than 7000 islands strewn across a great stretch of tropical sea. Throw in one of the worlds most diverse ecosystems. Add hundreds of ancient cultures and one very modern one. Top it off with soaring volcanos end serrated mountains, and viola! You have got the Philippines.

Green islands, clear blue water and a very hospitable people: that's what the Philippines characterizes. Above as well as underneath the water there is much to see and to explore. The Philippines are fortunately not known with mass tourism and here it is possible to enjoy your dive in small groups, to 'hike', to walk along the beach and to explore the environment.

Caused by the long presence of Americans, the Philippines are Asia in a modern outfit. Therefore the population who predominantly is roman catholic, speaks not only Pilipino, but English as well.

Magic Island Dive Resort

All our cottages have a wonderful view at the sea or at the swimming pool. All cottages have the disposal of an aircon and in all cottages you can take a nice hot shower and that of course is really great after a long and beautiful night dive or a day of intense "hiking"!

Walk from the dive centre into the water for a relaxing dive or a wonderful night dive. On your return you can rinse of your gear and take a shower.
